

FEATURES OF AN AQUIFER

Refer to the vocabulary list below and write the name of the features of an aquifer in the appropriate spaces on this illustration.

Vocabulary list:

Confined aquifer: an aquifer that is overlaid by a confining layer

Surficial aquifer: a shallow aquifer with no confining layer.

Water table: the upper surface of an aquifer's zone of saturation

Zone of saturation: the "wet" part of an aquifer. This is where the aquifer is completely saturated with groundwater

Answer Key:
